

FINET Practice

The Division of Finance provides a weekly opportunity to practice FINET transactions in a safe environment, the FINET training area. After the practice session we remove all of the entries and restore the training area to the way it was before the practice session.

You may use the practice area for any of the following:

- Retry exercises from FINET classes (We provide the exercises.)
- Complete exercises from your own documents (You provide the exercises from your own documents.)
- Review results of processed transactions

The practice area will be available each Friday morning during January from 9:00 a.m. to noon. If this proves useful we will extend it beyond January.

To join the practice session on a Friday between 9:00 a.m. and noon, or to obtain more information about the practice sessions, access our practice web site at:
